(a)
Two-player (Gillespie-like)
Mean coexistence index
(stones-normalised, 0 = one species only)
Lattice
Torus
ER
SBM
DC-SBM
Mean degree k
(b)
Three-player RPS
Mean Jain fairness index
(J = 1/3 one species only, J = 1 equal)
J = 2/3: one absent, two equal
J = 1/3: one species
Mean degree k
(c)
Three-player AVA
Mean Jain fairness index
(J = 1/3 one species only, J = 1 equal)
J = 2/3: one absent, two equal
J = 1/3: one species
Mean degree k
